Driving Intelligence

## Who is *GPS Track USA*?

- One of the largest Independent GPS resellers in the US and Canada
- The longest continuous GPS Preferred Provider for the Neighborly Group
- Our independence gives us the luxury of choosing the best systems on the market.
- The service providers we represent have over 7,000,000 devices deployed.
- Keep going and you'll see why we selected Azuga and why you will want to use the system to manage your fleet.

# Why GPS Track USA ?

The system is unique in the market with key differentiators

**Intuitive UI**

**Coaching Tips**

**Gamification**

**Free Custom Reporting**

**Data Science**

**Role-based Configurability**

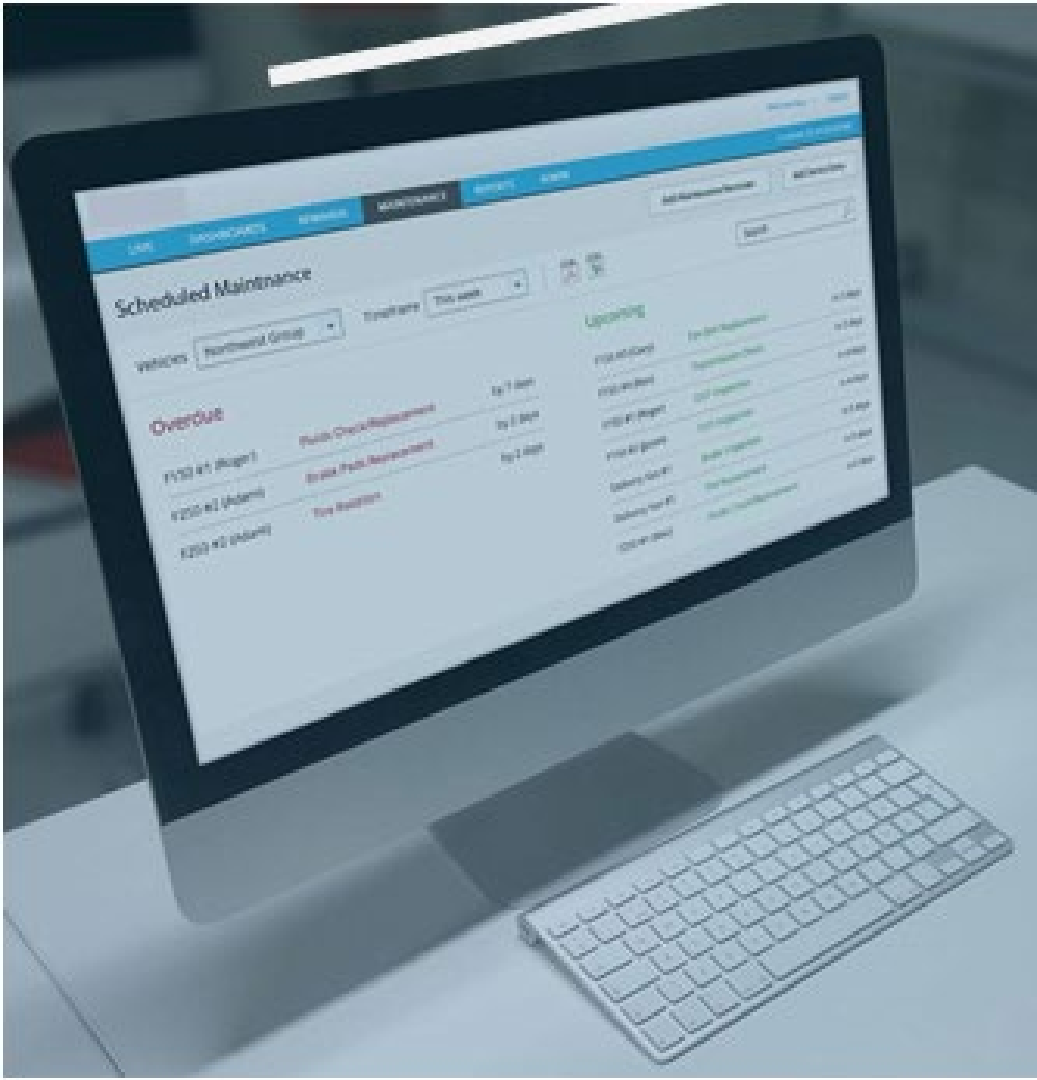

**API Integration**

**Concierge Customer Success**

# The System Fits All Vehicles

# Intuitive UI

---

**Next-generation  
technology and analytics**

---

**Intuitive, comprehensive,  
usable, configurable**

---

**Award winning**

Feb-20-2017	Vehicle 7	Group 1	Driver 7	04:22:40	Idling

# Active call blocking to keep your drivers safe *(optional feature)*

- Automatic message sent when call/text received
- Whitelist unallowable numbers
- Allow & block text messages
- Control navigation
- Allow only hands-free calls
- Auto-kill specific apps

# The system offers a compelling way to invest in your drivers

## Your drivers are generally good

- Reward drivers for safe driving
- Move from "Gotcha!" to "Great job!"
- Effortless results
- Positive impact on culture
- Higher job satisfaction and loyalty
- Score visibility improves self-coaching

## Reward them for good behavior

## Further optimize good behavior

# API Integration

The screenshot shows a documentation page for 'Authentication'. The left sidebar contains a 'DOCUMENTATION' menu with 'Authentication' selected, and a 'MOBILE' menu with various mobile app features. The main content area has a search bar and a 'Suggest Edits' link. The text explains that authentication requires a key and provides a code snippet for using BASIC authentication.

## Authentication [Suggest Edits](#)

Authentication requires a key, which can be acquired by sending an email to [products@jazusa.com](mailto:products@jazusa.com). You will need to include your encoded key in every request.

Using BASIC authentication.

All request should contain the following header.

Authorization: Basic <Base64Encoded>

### Java Snippet

```
byte[] authNcBytes = Base64.encodeBase64("2".getBytes());
String authStringEnc = new String(authNcBytes);
```

The screenshot shows a documentation page for 'Status Codes'. The left sidebar contains a 'DOCUMENTATION' menu with 'Status Codes' selected, and a 'MOBILE' menu. The main content area has a search bar and a 'Suggest Edits' link. The text states that the following codes are valid and provides a table of status codes.

## Status Codes [Suggest Edits](#)

The following codes are valid:

Code	Name	Reason
200	Success	Everything worked successfully!
400	Bad Request	Your request could not be understood by the server.
401	Unauthorized	We couldn't authorize you, or you have used the wrong API key
403	Forbidden	The resource requested is restricted for your API Key.
404	Not Found	The specified resource could not be found.
405	Method Not Allowed	You tried to access a resource with an invalid method.
429	Too many requests	You're requesting too much! Slow down!
500	Internal Server Error	Hell's fire let loose
503	Service Unavailable	We're temporarily offline for maintenance. Please try again later.

“We got our fleet up and running in a single day, and their team gave great support in configuring the service.”

Justin McCauley  
McCauley Services (Pest Control)

# Quarterly Fleet Performance Review

## Idling

## Speeding

## Braking and Acceleration

Hard acceleration events are significantly higher than the industry average of 0.7  
Hard braking events are significantly lower than industry average of 1.0 all year except Jan and Feb

EPS Track USA

USA 3333 3333

## Average Number of Stops

## Speeding

- Speeding events are higher than the industry average
- Minor reduction in number of drivers with 'Poor' scores from January to June

Note: Speeding scores take credit

## Average Daily Miles and Trip distance

- About 1394 miles driven per month per vehicle
- Consistent increase in distance per vehicle till April

- A majority of trips (about 60%) are short trips (< 5 miles)

EPS Track USA

USA 3333 3333

# What the users are saying

1

**“We got our fleet up and running in a single day, and their team gave great support in configuring the service. I get one simple report in my email, and all of our management staff stays updated on their drivers”**

**Justin McCauley  
McCauley Services, Arizona (Pest Control)**

# What our customers are saying

2

**“GPS Fleet Telematics is going through a huge makeover. Plug and Play devices, rich data to make fleets more efficient and at half the price of the plain old black box systems. We chose this service over a traditional provider to help us move the next generation of GPS Tracking and Vehicle intelligence.”**

**Pete Steinmetz, Turner Pest Control**

# What our customers are saying

3

**“This is a next-gen GPS. It’s easy to install, portable between vehicle and provides valuable business insight into asset tracking, fuel wasting behavior, vehicle maintenance and driver performance. We switched our service from a hard-install GPS provider and are delighted at the results.”**

**Remy Cano, Northwest Tank (Water & Sewer)**

# What our customers are saying

4

**“I’ve tried them all – black box GPS systems, battery powered trackers, phone-based applications. The hassle wasn’t worth it. Simply put, this is the best price-performance value and paid for itself in the first month of use”**

**John Todaro, PhotoFax (Armored Car Services)**

# What our customers are saying

5

**“Kitsap Garage Door has always believed in the use of technology to deliver better customer service and improve productivity. We just switched because wanted to go beyond GPS, to get insights into engine idling and fuel usage. At 70 cents per vehicle per day, the ROI is a no brainer and the benefits are immediate”**

**John Ramer, Kitsap Garage Door**

# What our customers are saying

6

**“This is the iPhone of the GPS industry. It’s simple, affordable and gives the best results.”**

**Chris Parisis, CG Appliance Express**

# What our customers are saying

7

**“I really liked the maintenance geofencing, reporting and alerts!”**

**Tony Bauman, Fox System**

# What our customers are saying

8

**“It is the easiest, most intuitive system I have used to date. Everything that I need is a click away, and every month or so, they come out with innovative features that make their platform and even better bang for the buck”**

**Patty Middleton, California UMI**

# What our customers are saying

9

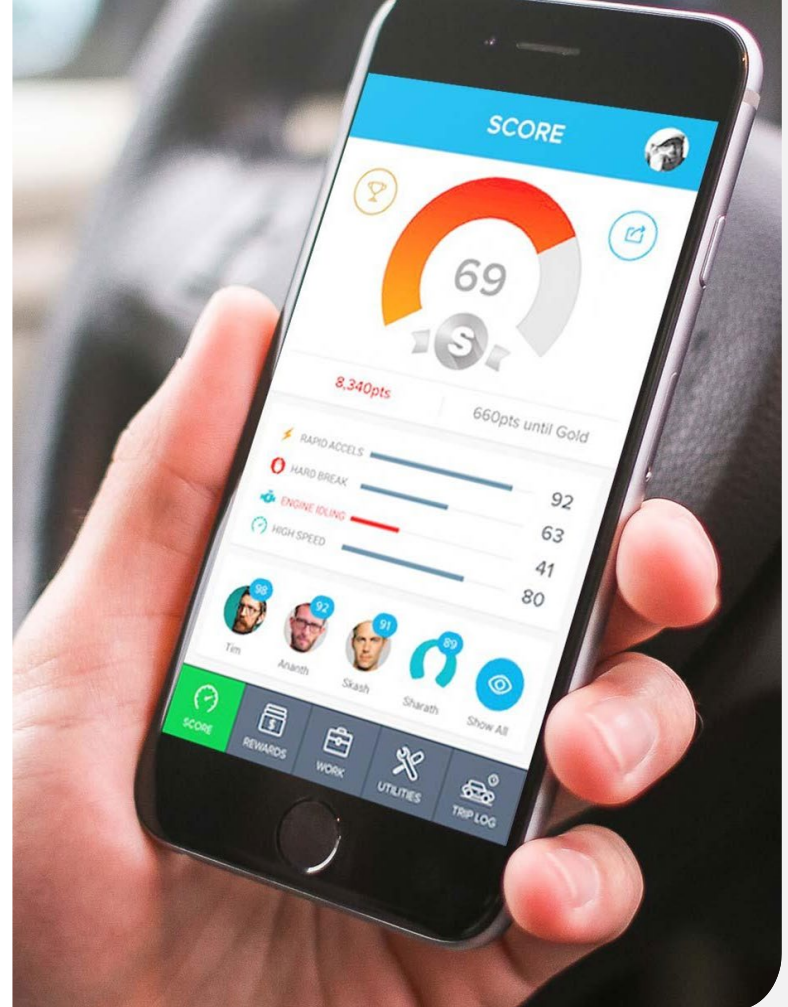

**“This is the best GPS tracking device on the market hands down. We’ve tried many others over the years and none them compare.”**

**Sean Gilstrap, Correct Electric**

## We understand what you need from a telematics solution

- Something drivers will like
- Can't seem like "Big Brother"
- Must be flexible and comprehensive
- Vendor is easy to work with
- Affordable, pay only for what you use
- Glean new insights from data for continuous improvement

# The system is feature rich for vehicles and assets (and that's just table stakes)

## Location Tracking

- Live Maps and Status
- Virtual Ride-along
- Geofences
- Daily Activity Reports
- Long Stop Alerts
- Unauthorized Vehicle Use

## Driver Behavior

- Driver Scores
- Driver Rewards
- Speeding
- Hard Braking
- Rapid Starts
- Hard Cornering
- Idling
- Distracted Driving
- Seatbelt Usage

## Fuel Management

- Fuel Usage
- Fuel Efficiency
- Find Closet/ Cheapest Fuel
- Fuel Card Integration

## Vehicle Health

- Check Engine Light
- Vehicle Fault Codes
- Maintenance Alerts and Reminders

# Driver Score Comparison Report

- Compares current week's score with score from the last 2 weeks
- Provides score trend – progress or decline in score from the previous week
- Ordered by current week's score from lowest to highest
- Weekly report displaying data for week ending on the previous day

Generated  
March 08

Weekly Driver Score Comparison Report for Mar-05-2017 

Driver	Vehicle	Group	Safety Score & Trend - Current Week		Safety Score & Trend - 1 Week Ago		Safety Score - 2 Weeks Ago	
Driver 1	Vehicle 1	Group 1	48	↓	75	↓	84	
Driver 2	Vehicle 2	Group 1	51	↓	55	↑	51	
Driver 3	Vehicle 3	Group 2	56	↓	58	—	58	
Driver 4	Vehicle 4	Group 1	62	—		—	83	
Driver 5	Vehicle 5	Group 3	63	↓	66	—	66	
Driver 6	Vehicle 6	Group 2	67	↓	68	↑	61	
Driver 7	Vehicle 7	Group 4	71	↓	81	↑	63	
Driver 8	Vehicle 8	Group 3	72	—		—	75	
Driver 9	Vehicle 9	Group 3	73	—		—	64	
Driver 10	Vehicle 10	Group 1	74	↑	67	↓	72	
Driver 11	Vehicle 11	Group 5	75	↓	81	↓	83	
Driver 12	Vehicle 12	Group 4	77	↓	86	↑	85	
Driver 13	Vehicle 13	Group 1	78	↓	80	—		
Driver 14	Vehicle 14	Group 2	81	↑	67	↓	70	
Driver 15	Vehicle 15	Group 2	81	↑	80	—		
Driver 16	Vehicle 16	Group 4	82	↓	83	↓	89	
Driver 17	Vehicle 17	Group 5	82	↑	79	↑	74

# AFM Manager App

- Manage and track your fleet on the go
- Allows analysis and monitoring of location, speed, start, stop and events
- Live status | Work | Messages | Utilities

# Occupant Recognition through beacon technology *(optional feature)*

Monitor who's inside the vehicle:

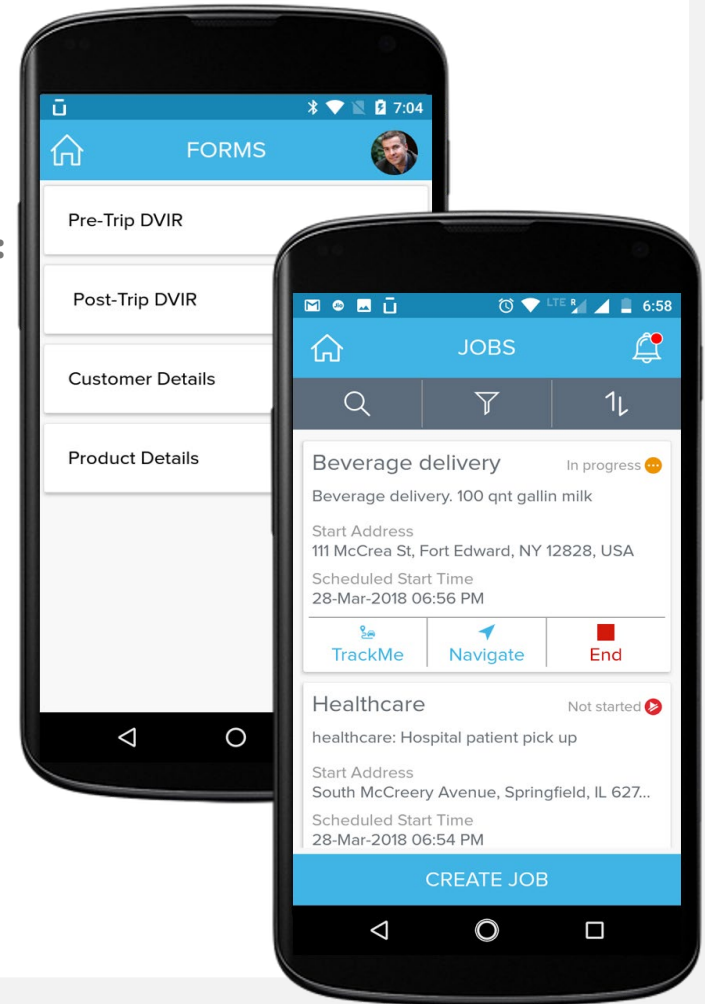

- Track driver assignments, automate payroll and avoid unauthorized vehicle use with Occupant Recognition
- Identify drivers in cases where a vehicle is utilized by multiple drivers.
- Instant Notification about who is behind the wheel. Each driver gets a unique beacon

# Jobs

Route vehicles and communicate with your drivers effectively:

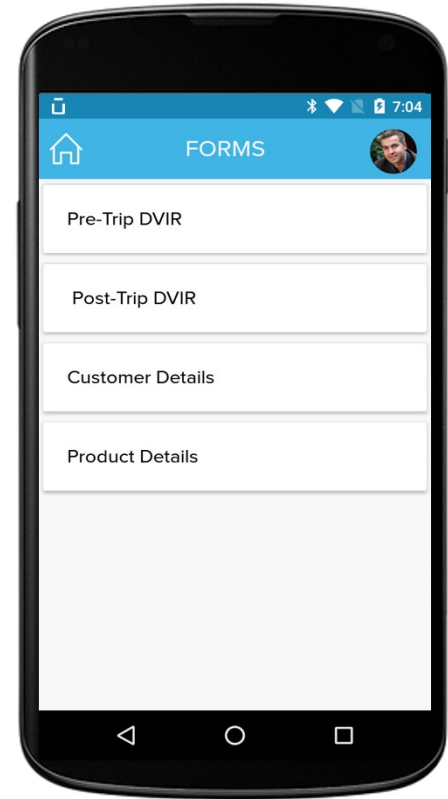

- **View jobs assigned by managers**
- **Create / Start / Update / End jobs**
- **Easily navigate to job location**
- **Share location**
- **Filter jobs based on job status and scheduled start time**
- **Filter jobs based on job start time and number**
- **View job history**
- **Add jobs to calendar**
- **Create and associate contacts to jobs**

# Forms

Forms allow data capture directly from the drivers as activities are performed

- **Create custom fields**
- **Capture basic data**
  - **Texts**
  - **Numbers**
  - **Multiple Choice Questions**
  - **Checkmarks**

## DATA MINING

- Analyze driving patterns to predict likely 'unsafe' behavior
- Deep dive into driving patterns to understand vehicle maintenance
- Develop fuel economy benchmarks by vehicle make, model, region and season

## MODELING

- Driving behavior and fuel consumption
- Driving behavior and accidents
- Driving behavior and battery health

## DRIVER SCORE INDEX

- Driver behavior based on risk factors such as weather, time-of-day, vehicle weight, geographic context
- Insurance based on factors such as behavioral risk and exposure risk
- Accelerometer-based event detection (hard cornering, smooth driving) using high-frequency data
- Tire stress index based on road conditions, driving patterns

# Data Analytics Platform
